

**Mentoring in Action**  
**EDU 620**  
**Spring 2017**

*This was a fabulous course. I gained a great deal of insightful information that will lead in a positive direction for my district.*

*...well worth putting in the time in. The resources are wonderful!*

*This course will increase your understanding of how to mentor novice teachers immensely.*

*It's more work than I initially thought it would be but well worth the time and effort you will need to put into the course.*

*Take it!! You won't regret it.*

*This course is a lot of work yet is self-reflective and makes you a better teacher by examining yourself.*

*If it's quick credits you need, this is not the course for you. This course does have a lot of content and an ongoing time commitment. If you are truly interested in maximizing your mentor experience or training others to do so, this is an excellent course to take.*

*Not to wait. Enroll now.*
